

Aman Kumar

Linux & Cloud Operations Engineer

9760528609 | aman9760528609@gmail.com

PROFESSIONAL SUMMARY

Motivated IT professional with 3 years of experience managing Linux-based systems and integrating cloud platforms like Microsoft Azure. Expertise in Unix/Linux environments, Kubernetes orchestration, and DevOps practices aimed at streamlining IT operations and enhancing system reliability. Passionate about automation and contributing to efficient, modern infrastructure solutions.

TECHNICAL SKILLS

- **Operating Systems:** RedHat-Linux (6, 7, 8), Ubuntu (16, 18).
- **Cloud & Virtualization:** Microsoft Azure, VMware.
- **Containerization:** Kubernetes (Orchestration), Docker.
- **Administration:** LVM (Logical Volume Manager), User/Security Administration, Patch Management (RPM/YUM).
- **Tools:** ServiceNow (Ticketing), Shell Scripting, Matilda Cloud.

PROFESSIONAL EXPERIENCE

Wipro Limited

- **Matilda SME (1.1 Years):** Served as a Subject Matter Expert for Matilda Cloud solutions.
- **Linux & Kubernetes Administrator (1.8 Years):** Managed Linux-based systems and Kubernetes orchestration.
- **Azure Administrator (5 Months):** Focused on managing cloud platforms and infrastructure.

Key Responsibilities & Achievements:

- **System Performance:** Monitored and tuned system performance while maintaining strict SLAs and handling UNIX escalations.
- **Orchestration:** Managed Kubernetes pods, monitored status, and maintained technical documentation for containerized environments.
- **Security & Access:** Implemented file permissions (ACLs), managed user accounts, and performed security administration across systems.
- **Storage Management:** Managed file systems and implemented Volume Management using LVM (Logical Volume Manager).
- **Automation & Deployment:** Responsible for OS build and release, as well as automated package/patch management using RPM and YUM.

CERTIFICATIONS

- Microsoft Certified: Azure 900 (Fundamentals).
- Kubernetes for Absolute Beginners - Hands-on (Udemy).
- Complete Linux Training Course - 2025 (Udemy).

- Linux for Beginners (Udemy).

EDUCATION

M.Tech in Computing Systems & Infrastructure

Birla Institute of Technology & Science (BITS), Pilani | Nov 2023 – Present

Bachelor of Computer Applications

Institute of Technology and Management | Jul 2019 – Aug 2022
